# Chroma-Q® Sandi™ 1622
## Let the world see you in the best light

Sandi™ 1622 is a personal LED light for online appearances. With its soft lens diffusion and adjustable colour temperature, Sandi helps you look your best for that important online meeting, video or event.

With everything now moving online, this Video Conferencing key light has been developed to ensure that your professional image isn't compromised by bad lighting. Designed for business professionals, vloggers, bloggers, zoomers, telework, government officials, makeup artists, theatre and more, Sandi can help you stand out for all the right reasons.

### Key Features:

- Bright at up to 1580 lumens
- Adjustable intensity from 0 to 100%
- Adjustable warm to cool colour temperature from 2,700K to 6,000K
- Individually controlled left and right halves

- High colour rendering quality
- High-quality soft light for skin tone
- Versatile - supports phone, tablet, laptop and monitor
- Charging USB port for smartphone and tablet
- Can fit around most monitors up to 24"

variable white

variable Intensity

## Simple to use

- Sandi is powered using a USB-C power adapter (included)
- An additional USB Type A connector allows you to connect a phone or tablet for charging to maintain power through lengthy meetings
- Two dials allow full control of the intensity and colour temperature

## Smooth lighting

With 110 degree coverage from 3 different axis, the Sandi creates an even, soft, natural light, delivering beautiful skin-tones with enough output to look good, but that isn't harsh on the eyes.

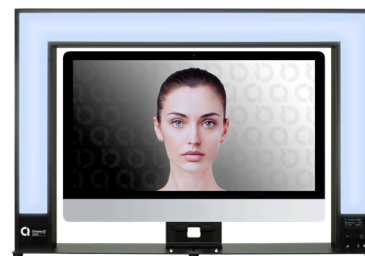

Preliminary

# Features

Sandi 1622 has two adjustment dials that allow you to control the intensity from 0 - 100%, and the colour temperature from warm white to cool white (2,700K to 6,000K). The light features PWM flicker-free source for cameras. Power the Sandi with a USB-C connection (included).

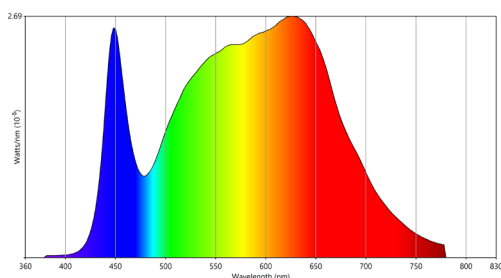

Warm colour 2700K

Individually controlled left and right halves

Cool colour 6500K

Sandi 1622 delivers high quality white light with a near complete visible spectrum. This ensure the colours captured by the camera are accurate.

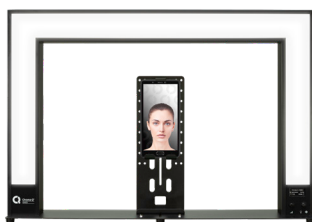

Wide Spectrum

High Level CRI

Broadcast Level TM-30

# Mounting Accessories

Sandi 1622 has a physical support designed to be used with your laptop, phone, tablet, or a monitor up to 24".
