Chroma-Q™
BRILLIANT SOLUTIONS

DESCRIPTION

The device shall be a fault tolerant, self healing DMX buffer designed to fully isolate all outputs from each other.
The device shall fit customised front of house racks.

FEATURES

• Fault tolerant, self healing DMX buffer designed to fully isolate all outputs from each other.
• Supplied with 8x5 pin XLR connectors.
• Each output is separately generated and boosted from the original DMX signal.
• Through connector and termination switch.
• Unique Magic Box interlocking enclosure facilitates rack mounting when used in pairs and truss mounting via captive nut insert.
• Designed for customised front of house racks.
• Built-in termination.
