1. Overview
The Chroma-Q® Space Force™ is a cutting-edge white LED space light fixture that is a true replacement for equivalent conventional light sources commonly used in Film and TV studios around the world. For a complete list of accessories please visit www.chroma-q.com

2. Safety

Caution
1. This product is for professional use only. It is NOT intended for domestic or outdoor use.
2. The bright flash of light during power-up and continuous strobe effect may cause epileptic seizure.
3. This product must be used with safety cable.

3. Cabling
The Space Force is built with chassis mount powerCON TRUE1 connectors for power input/through and chassis mount XLR 5-pin for DMX input/through. The chassis is ground bonded.

4. Mounting
The Space Force is built with dual purpose brackets for stacking and hanging. Secure the fixture with a safety bond. A provision for the fixing hold is built into the enclosure. Standard and low-profile yokes are available as optional accessory items.

5. Optics
The Space Force is built with a high efficiency diffuser that provides a fully homogenized beam spread.

6. Control
The Space Force can be controlled through:

<table>
<thead>
<tr>
<th>MANUAL OPERATION</th>
<th>rear control panel</th>
</tr>
</thead>
<tbody>
<tr>
<td>INPUT CABLE</td>
<td>via remote DMX console through XLR-5 pin cable</td>
</tr>
<tr>
<td>INPUT RF OPTION</td>
<td>via wireless DMX transmission</td>
</tr>
</tbody>
</table>

Rear Control Panel with LCD display:

DMX Operation:
To set the DMX Start Address,
On the Control Panel, press the Addr button once, “Addr” on the top left of the display flashes
Use either the Left-hand or Right-hand Knobs to set the DMX start address:

<table>
<thead>
<tr>
<th>LEFT-HAND KNOB</th>
<th>RIGHT-HAND KNOB</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Clockwise to increase the value by 1’s</td>
<td>• Clockwise to increase the value by 10’s</td>
</tr>
<tr>
<td>• Counter-clockwise to decrease the value by 1’s</td>
<td>• Counter-clockwise to decrease the value by 10’s</td>
</tr>
</tbody>
</table>

Press and hold the Addr button for 2 seconds to save the new DMX setting, “Done” and “SAVED” appears on the display.

DMX Control Channels: 2
1. 1st DMX Channel controls the Intensity Level adjustment
2. 2nd DMX Channel controls the Color Temperature adjustment
3. When setting Personality to “INT-CCT-EXTD”, a third DMX channel will be established to carry commands rather than light data from the console to the fixture. A command is a binary number that must be asserted on the third channel for at least 5 seconds to have it executed.

Main Menu
1. Press both LEFT-HAND and RIGHT-HAND KNOBS to access the Main Menu
2. Rotate the LEFT-HAND KNOB to scroll through the menu items
3. Press LEFT-HAND KNOB to select the displayed item
4. Press the RIGHT-HAND KNOB once to exit to the previous menu item or the main display
5. Press both LEFT and RIGHT-HAND KNOBS for 2 sec. to save; the display shows “SAVED”

</table>

Remote Wireless DMX Operation
The Link Indicator light on the control panel shows if an RF signal link to a remote DMX wireless transmitter is present or not. To activate a link,
1. Enable the INPUT RF from the Technical menu
2. From the external transmitter, initiate the link process
3. The Link Indicator flashes fast to indicate the link is invalid; it turns into solid ON if DMX signal is received
Space Force has a robust feature set available via RDM. Consult the Operator’s Manual for details and operation.

7. Further Information
Please refer to the Chroma-Q Space Force manual for more detailed information. A copy of the manual can be found at the Chroma-Q website – http://www.chroma-q.com/support/downloads.asp.
