The Chroma-Q® Space Force™ is a cutting-edge variable white LED Space Light fixture that is a modern replacement for conventional space lights and soft light source commonly used in Film and TV studios around the world. Extensive RDM functionality through wired or the optional Lumen Radio CRMX connections. Hanging options include a standard bridle, optional yoke and a low-profile hanging bracket.

Uses the same proven convection cooling technology found in other Chroma-Q LED models - which eliminates the need for noisy cooling fans - the Space Force provides totally silent running in operation. As a result of its low profile, lightweight and skirt-free design, the Space Force is quick and easy to set up at any height.

- Comparable to a traditional 6kW fixture
- Up to 26,700 lumens
- Variable white – 2,800K to 6,500K
- Only 8kg / 17.6lb
- No fans, no noise
- Smooth, soft uniform beam
- Variable PWM for flicker-free operation
- Multiple hanging options
- Wireless DMX / RDM
- Superior unit-to-unit consistency
- Chroma-Q’s proven LED performance
