1. **Overview**
The new Chroma-Q® Studio Force T Phosphor™ is a 3,200K CCT, tungsten white fixture which utilises innovative LED technologies found in the Studio Force™ range to provide an equivalent soft edge output to a fluorescent fixture - up to 8,120 lumens - developed specifically for use in TV, film and broadcast studio environments. The fixture features two light engines with 24 Blue LEDs each for a total of 48 high powered Blue LEDs. The fixture is equipped with a built-in power supply unit which can operate as a standalone unit or controlled remotely through the ANSI E1.11 USITT DMX 512-A protocol.

2. **Safety**
   1. This product is for professional use only. It is NOT intended for domestic or outdoor use.
   2. The bright flash of light during power-up & continuous strobe may cause epileptic seizure.
   3. This product must be used with safety cable.

3. **Cabling**
   PowerCon connectors are used for power input and through. XLR 5-pin connectors are used for data signal from an external DMX control console. The chassis are ground bonded.

4. **Mounting**
   An adjustable mounting bracket is installed with the fixture for floor, wall and truss mounting applications. Use the quick release fixing for easy tilt adjustment. Secure the fixture with a safety bond through the fixing hole that is built into the end plate.

5. **Optical Accessories**
   Slide-in optical accessories are available to adjust the beam angle to suit a wide range of applications. Two accessory slots and a swivel plate are included at the front and side of the fixture to hold and lock these slide-in accessories: cyc and border light lens, lightweight kit, egg crate louver, top hat, half top hat, barn door, and softbox attachment accessories.

6. **Control**
   The control functions of the Studio Force T Phosphor are accessed through the Touch Screen LCD display at the rear of the fixture. The features of the Touch Screen LCD display are:

<table>
<thead>
<tr>
<th>Screen menu title</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Control information</td>
<td>DMX address, footprint channels, mode name, and indicators that are displayed on the screen after command buttons are tapped.</td>
</tr>
<tr>
<td>Command buttons</td>
<td>Buttons which can be tapped to access control functions and options.</td>
</tr>
<tr>
<td>DMX Line is busy?</td>
<td>The warning screen appears when a DMX signal from an external control console is plugged into the fixture set on Manual. Press &amp; hold the Level button to change mode.</td>
</tr>
<tr>
<td>Locked</td>
<td>Default sets the screen to switch off &amp; lock if untouched for 30 sec. Tap the screen to activate then press &amp; hold the lock symbol for 5 sec.</td>
</tr>
</tbody>
</table>

7. **Further Information**
Please refer to the Chroma-Q Studio Force T Phosphor manual for more detailed information. A copy of the manual can be found at the Chroma-Q website – www.chroma-q.com – under Support.
